## Junior Class History

She can hardly realize we  
are Juniors!

She can remember when we  
started to school. We were so timid  
that we would hardly tell the  
teacher our names, but as we  
stayed in school we became  
accustomed to the surroundings  
and by the time we were in  
the third grade our timidity  
had completely left us. Slowly the  
years dragged by until we were  
in the sixth grade - imagine that -  
and it was our first year in  
high school as we had no junior  
high school at the time. Can  
you remember as well as I  
how we got lost every hour ??  
Now look at us, all grown-up  
and Juniors - my don't we feel  
big ? And in conclusion let  
us say that we know the  
Juniors of to-day will be  
the Seniors of to-morrow.
